The caption reads:

Israeli security forces scuffle with a Palestinian protester and a boy outside Damascus Gate in Jerusalem's old city during a demonstration demanding Israeli authorities to return the bodies of alleged Palestinian attackers, on December 26, 2015

It is a very misleading caption, what we see in these pictures is a young boy frightened to death, because the European Jews were out there to get him, and his father was trying to protect him. Please remember that where these pictures were posted was at Getty Images and 50% of it is owned by a Jew - and therefore they go out of their way to fabricate silly captions that make no sense.
